

ECO CONCRETE ETCHER

WATER BASED

Improves the porosity of hard troweled or non-porous concrete surfaces allowing improved adhesion prior to the application of sealers, paints or stains.

Directions: Thoroughly saturate the concrete surface to be treated with this product using a pump up sprayer or watering can. Scrub the product into the concrete surface with a very stiff brush for 15 minutes. Do not allow the surface to dry out during application, add more product or sprinkle with water. Thoroughly rinse the surface with water three times to neutralize the etching action. When surface dries if a powdery residue forms rinse again with water.

1. FIRST AID:

Eyes – Flush with cool water for at least 15 minutes. Call a physician.

Skin - Wash thoroughly with soap and water. Call a physician.

Ingestion – Call a physician. Never give anything by mouth to an unconscious person.

Inhalation – If inhaled, remove to fresh air. If not breathing, give artificial respiration, preferably mouth to mouth. Call a physician.

2. SPILL CONTROL: Eliminate all ignition sources and keep public away. Ventilate confined spaces and keep public away. Recover free product with absorbent materials and dispose of in accordance with local State and Federal Regulations. Keep product out of sewers and water courses.

DANGER: Keep out of reach of children and animals.

Always wear gloves and protective goggles when using this product.

HMIS: H=1, F=0, R=0, PP=X

NET CONTENTS: 1 Gallon (3.78L)

3. PROTECTIVE EQUIPMENT: Wear safety glasses or goggles and recommended protective gloves. If exposure exceeds TLV, wear NIOSH/MSHA approved respirator.

4. PRECAUTIONS: Do not get in eyes, on skin or clothing. Do not take internally. Wash thoroughly after handling.

5, GENERAL INSTRUCTIONS: Before using this product read Material Safety Data Sheet (MSDS) which is available on website

Note: Emptied Container retains vapor or product residue.
